

CERTIFICATION

This is to certify that

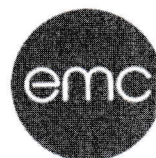

Michele Ferrarese

has successfully completed
an **EMCSTANDARDS** course

Low-cost, quick, bench top EMC Testing
using near-field probes

Date: 2 MAR 2022

Course tutor Keith Armstrong

Course duration: 1h 16min

Course content: Near fields and near-field probing, Making your own near-field probe, Buying near-field probes, Affordable spectrum analyzers, Using near-field probes to check emissions, Avoiding overload (including by out of band signals and intermodulation), RF Current Monitor Probing Making current monitor probes, Buying current monitor probes, Using current monitor probes, Using current monitor probes to predict radiated emissions on full-compliance tests, Some useful references, sources, and webinars

Certificate number: 1a67486c1953559b799a2d266
