

CERTIFICATION

This is to certify that

Jonathan Maykol Moreno Rey

has successfully completed
EMCSTANDARDS course

Low-cost, quick, bench top EMC
Testing using near-field probes

Date: 26 SEP 2023

Course tutor:

Keith Armstrong

Course duration: 1h 15min

Course content: Near fields and near-field probing, Making your own near-field probe, Buying near-field probes, Affordable spectrum analyzers, Using near-field probes to check emissions, Avoiding overload (including by out of band signals and intermodulation), RF Current Monitor Probing, Making current monitor probes, Buying current monitor probes, Using current monitor probes, Using current monitor probes to predict radiated emissions on full-compliance tests, Some useful references, sources, and webinars

Certificate number: 1a67985c4913354b399a2d667
