FEDEVEL

CERTIFICATION

This is to certify that

Jesse Ray

has successfully completed the course

Low-cost, quick, bench top EMC Testing using near-field probes

Date **4 MAR 2025**

Course tutor Keith Armstrong

Keith Armstrong

Course duration: 1h 15min **Course content:** Near fields and near-field probing, Making your own near-field probe, Buying near-field probes, Affordable spectrum analyzers, Using near-field probes to check emissions, Avoiding overload (including by out of band signals and intermodulation), RF Current Monitor Probing, Making current monitor probes, Buying current monitor probes, Using current monitor probes, Using current monitor probes to predict radiated emissions on full-compliance tests, Some useful references, sources, and webinars
