FEDEVEL

CERTIFICATION

This is to certify that

Jesse Ray

has successfully completed the course

Filtering for EMC

Date **4 MAR 2025**

Course tutor Keith Armstrong

Keith Armstrong

Course duration: 1h 55min **Course content:** Filtering is not 'black magic', How filters work, The advantages of soft ferrites, CM filtering, Specifying filters, Real-life problems with resonances, inductors, capacitors, Earth leakage currents, safety, and component selection, Filter construction, mounting, and cabling, The synergy of filtering and shielding, Some useful references and tools
